

Who we worked with:

Pynk and Fluffy Ltd

www.pynkandfluffy.co.uk

When:

2006 – now

What we did:

Consultation

Development

Co-Lo

Houxou web-site

Pynk and Fluffy re-designed our web-site, and we built it with CMS tools in Symphony, so that it can be easily updated.

Consultancy & Strategy

Pynk and Fluffy are our design partners. They are the creative, visionaries, who can design a web-site. They have invented the user flows and interfaces for some of the most talked about web companies in the last few years.

They know that your product or service, to grab your visitors or customers your site will need to be fast, friendly and intuitive. Consumer facing or B2B, they design elegant, engaging sites where "Every pixel has a purpose".

We build the web-sites that Pynk and Fluffy design for their clients. These are always CMS and may have complex database structures supporting them.

We help people invent brilliant businesses online.
Whether you've been going for 20 years or 20 minutes, we'll bring your ideas to life.

Branding

Your brand and corporate identity needs to match perfectly the personality of your business and the expectations of your users.

We can start with a clean sheet or evolve something established to create a flexible, distinctive brand you can be proud of.

Online Innovation

It doesn't matter how brilliant your idea is, if the way it works sucks, your users will give up and move on.

We've invented the user flows and interfaces for some of the most talked about web companies in the last few years.

Web design

Whatever your product or service, to grab your visitors or customers your site will need to be fast, friendly and intuitive.

Consumer facing or B2B, we design elegant, engaging sites where "Every pixel has a purpose".
